Dear Dr. Sabri.

Here are most of my reports. I am sorry that I've been such a long time sending them. In the case of one or two papers. eg Generalized Vaccines & Pneumo. Serum titration I'm afraid my supply of reports has run out.

Many thanks for those you sent me. Did the hepser. serum arrive safely. ~~With~~ Was it any good? I could let you have a little more if you required it.

Kind regards.

William South
