Broad Sanctuary, S.W.1.

INSTITUTED 1719.

12th Nov. 1937

Dear Dr. Sabin.

I am much obliged to you for the very interesting demonstration you have given me this morning. I should be glad to have your reprints as soon as you have published your findings.

There are two firms in Germany with special Super - or Ultracentrifuges (15000 rev.) :

1.) H. L. Kobe Berlin N 4.
Hessische Strasse

2.) E. Collatz & Co Berlin N. 4

9. Kessel Strasse.

The latter is cheaper and has as a representative in London : Mrs A. Gallenkamp. & Co Ltd.

17. Sun Street.

With regard to membrane Filters (Zsigmondy - Bechhold) I recommend you Mrs Paul Altmann

Berlin NW 7. 47 Luisenstrasse.

You can have them together with the apparatus in 2 sizes (9cm and 15cm diameter) and tested for various sizes of pores.

Sincerely yours.

Ernst Pränker.
