

DR. JOSEPH BRENNEMANN
READING, VERMONT

December 30, 1943

Major Albert B. Sabin
The Children's Hospital Research Foundation
Elland Avenue and Bethesda
Cincinnati, Ohio

Dear Major Sabin:

Again the time has come to remind you that the Practice of Pediatrics is trying to keep up to date as nearly as humanly possible and that your continued cooperation is more than ever necessary in these trying and full times. If you feel that your chapter should be changed in any way and that you can find the time to do it I shall be glad to hear from you. To fit into our scheme of things all manuscripts must be sent to me at the above address not later than April first, 1944; the earlier the better, however.

This letter does not call for an answer unless you feel that changes are indicated. If that is the case I shall be glad to hear from you as it will help us to keep track of things to better advantage. Will always be happy to get any suggestions as to how the service may be improved.

I feel sure that it will be gratifying to you, as it is to me and the publishers, that the Practice of Pediatrics is going strong despite present world conditions. Mr. Manners has just informed me that, "Its sale during 1943 has increased materially over previous years." Your cooperation in the effort to keep it constantly renewed is doubtless a major factor in this very satisfactory showing.

With many thanks, again, for your cooperation and with the Season's greetings,

As ever,

Very sincerely,

Joseph Brennemann
