

Dear Professor Sabin ,

After returning from England I applied to the Ministry of Health to get permission for Dr. Geder's study tour.

This permission was granted in these days, so I should like to inform you with many thanks, that my co-worker can go to your Institute in September or October. At present his applications for passport and previsa are under arrangement.

I am sure his scientific development will be greatly promoted in your Institute, and his practice acquired there will be of good use in the work of my newly established virus department.

Thanking repeatedly for your kind help and assistance,

with kindest regards

sincerely yours:

L. Váczí
/Prof. Dr. L. Váczí/
