Albert B. Sabin, M.D., Chief  
Division of Virology and Cancer Research  
The Children's Hospital Research Foundation  
Elland Avenue and Bethesda  
Cincinnati, Ohio 45229

Dear Dr. Sabin:

You will remember that sometime ago you appeared in a film produced by the Ohio State University for the U.S. Office of Education. The situation was the depiction of the Ohio Radio Medical Network and the scene was directed by Mr. Carl Clausen of our staff.

We are premiering the film in which your sequence appears and would like you to consider this a personal invitation to attend the meeting on June 2 described in the program enclosed. The film in which your sequence appears is the Information Explosion which will be shown at 9:15 a.m.

Naturally, we realize your busy schedule and should you not be able to attend the premiere, we shall try to arrange for you to see the film at another time and place at your convenience. Your cooperation in making this project possible is greatly appreciated.

Cordially,

*Robert W. Wagner*

Robert W. Wagner, Professor
