BACTERIOLOGY

June 5, 1950

Dr. Albert Sabin
Children's Hosp.
Research Foundation
Elland Ave. & Bethesda
Cincinnati, Ohio

Dear Albert:

I think the proposed conference on the question of in vitro diagnostic tests for poliomyelitis is a good idea and I shall be pleased to attend. I would like to bring Dr. Manfred M. Mayer of this Department with me since I feel that he can contribute to the discussion on this question.

I shall probably arrive on the morning of July 6 and am making reservations directly with the Hotel Hershey.

Sincerely,

Thomas B. Turner, M. D.
Professor of Bacteriology
