Dear Albert:

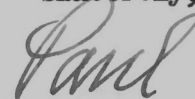

I believe it was agreed last week at the meetings that you would continue on the Editorial Board of the American Journal of Tropical Medicine and Hygiene.

I very definitely hope that you are willing to join us in attempting to maintain the quality of the Society's journal, and to improve it wherever possible by reviewing as many papers as necessary, and by offering whatever suggestions and criticisms you think may be helpful.

An early reply will assist in getting the editorial office into action. There are already several papers on hand for processing.

Best wishes.

Sincerely,

Paul C. Beaver
