Dear J. B.:-

I inclose a copy of the press release I have got out giving the first information about our European trip. You may have noticed in the papers that the A. F. of L. is vigorously condemning the sending of any delegation.

I am writing to you merely to suggest that you talk over with Matt the sort of thing that you and he would like to do over there in case you can arrange to get your parole. Give me this information in detail so that I can take it up with the proper authorities while I am in Europe.

As ever yours,
