My dear Tom:

Can you make it your business to take a run over this way next Saturday the 5 instant? Some of the matters that I discussed with you (also with Morrin) are getting quite ancient and I have one or two other things that I want to get cleared up without any further delay. Some how or other I rather expected to see you any day last month and was looking for you to show almost every visiting day. Hope all goes well with you. Nothing new or startling at this end. As always,

Faternally yours,
