

San Quentin, California

August 3, 1920

My dear Tom:

Just a line to let you know that some of the magazines that I spoke to you about when you were last over here showed up yesterday.

The records have also been heard from and as I have had word that you have called on Fred some days ago presume everything is in a fair way in that direction.

Have had no specific returns on the Kansas matter as yet but there is still time; I understand that there has been some illness in that direction which has no doubt interfered considerably. I figure that you have attended to your end of it long ere this which is all that makes any difference to me. The other angle will adjust itself.

Have a few little matters to take up with you when next you call, but there is nothing urgent at the present writing. Presume you can manage to keep busy without any trouble so I will not bother you further. Hope all goes well with you; we are x fine and dandy.

As always,
